AUSBILDUNGSBESCHREIBUNG

Lehrinhalte und Berufsfelder:

The Arqus Joint Master's Programme aims to advance a multidisciplinary understanding of Europe's role in the world by drawing on a range of approaches in the humanities and social sciences. The programme considers European people, governments, and companies as well civil society as global actors. Through research-based

analysis, students will be able to make independent contributions to analysing and shaping future-oriented projects and the related scientific and political debates.

The Arqus Alliance, as one of the first-generation European university alliances, is the appropriate home for such a programme since its member universities come from the Eastern, Southern, Western, and Northern as well as Central European regions and have foci in their research-based teaching that complement each other perfectly.
